

Dear patient,

Welcome to our practice! We thank you for making us your choice and joining with us in caring for your dental health. We look forward to meeting you! By becoming our patient, you have created a partnership which we hope will last through the years.

Our partnership is prevention oriented and dedicated to your health. We are committed to providing superior dental care and are proud of our dedication and customer service to our patients. Our plan is to help you feel and look your best while focusing on long term dental health in a comfortable, spa like atmosphere.

Your first appointment is an opportunity for us to review not only your medical/dental history, examine your teeth and gums and explain our findings to you but, to also get to know you personally as well. Our goal is to create sincere relationships with our patients. Please plan on spending a minimum of an hour with us for a thorough clinical exam and a chance to discuss your concerns and the recommended treatment plan.

Our office hours are patient-oriented and we are available for emergency services. Communication is important, and because of this, we will advise you in advance of treatment needs and expenses and assist with your insurance filing. Please make sure and keep us up to date on any changes to your insurance as well as address or phone number changes.

We have an easy to use patient communication system. This system allows you to tailor how you receive appointment reminders. Do you prefer text or emails? Do you need a reminder only once or do you prefer additional reminders as the appointment gets closer? Just let us know your preferences and we will set it up for you.

Again, my staff and I welcome you and look forward to a long healthy partnership with you, your family and friends.

Respectfully yours,

Dr. Michael Breier and staff
